Applications for Petroleum, Chemical, Pipeline, Mechanical and Instrumentation Engineers

## PetroPac for Windows™ Applied Drilling Engineering

More than 50 programs with step-by-step calculations and examples for applied drilling engineers. Calculate drilling costs, evaluate fluids and conduct other must-have calculations from your desktop. Based on industry standards from the SPE Textbook, "Applied Drilling Engineering Vol. 2. \$595

Order No. S220

## Instrucalc Version 6.2 for Windows™

Size more than 50 different instruments from control valves to flow elements and relief devices with this new upgrade of the widely accepted, easy-to-use, accurate sizing program. \$2,195 / Upgrade available for \$1,500

Order No. S162

## PathView 3D Well Path Visualization Tool

3D well path visualization tool. This program calculates the well path based on the survey data and graphs directional well paths. It calculates true vertical depth (TVD), horizontal displacement, and dogleg severity. This software can plot multiple wells (up to 20) \$1,200

Order No. S204

## EstPro for Windows™

The process plant conceptual cost estimating package to help you produce those "what would it take to do this?", "gotta have a number by tomorrow" estimates. \$995

Order No. S141

## Petrocalc 6.1 for Windows™ Wellbore Stimulation

Upgraded Windows version of popular DOS program. Solve fracturing and acidizing design problems. Use these programs to evaluate the effectiveness and size of the treatment as well as the choice of the different fluids and proppants. Calculate the effects of damage, flowback, proppant concentration and scheduling, and stimulation project economics. \$395

Order No. S732

## Pipeline Risk Controller Version 2.0 for Windows™

Using risk management concepts, PRC allows you to divide your pipeline system(s) into sections, gather meaningful data on each section, and assess the risks of each section. \$2,495

Order No. S111

## Pipecalc 1 Version 4.02 for Windows™

The "workhorse" software of pipeline calculations; a set of 16 routines that builds on a time-tested, proven program that appeared in 1983. \$995 / Now Upgraded for Windows XP and 2000, with better graphics!

Order No. S053

## CPPAC for Windows™

Centrifugal pump pac. All your pump calculation needs in one efficient and user-friendly package. As an upgrade of the time-tested PetroCalc 4 software, CPPAC adds Windows features to the set of routines. \$695
